EDUCATION

University of Southern California, Marshall School of Business – Los Angeles, CA

May 2026

Master of Science in Business Analytics

University of the Pacific – Stockton, CA

May 2023

Bachelor of Science in Business Administration, Business Analytics and Finance

PROFESSIONAL EXPERIENCE

Carter's – Atlanta, GA

May 2025 – Aug 2025

Transportation Data Analyst Intern

- Developed ETL workflows using Oracle SQL and Tableau Prep to integrate multi-source transportation data into Amazon Redshift, enabling accurate reporting and analysis of shipment flow, carrier performance, and logistics costs
- Built 3+ automated Tableau dashboards replacing manual Excel tracking, enabling real-time monitoring of carrier performance, delivery timelines, and transportation KPIs, reducing tracking time by 75%
- Monitored 200+ inbound shipment status daily, flagging delays and discrepancies impacting delivery schedules and supporting operations teams in improving on-time delivery by 15%
- Collaborated with carriers, 3PLs, and 10+ internal stakeholders to resolve shipment issues, track vendor performance, and deliver ad-hoc analysis to support operational and cost optimization initiatives

FPT Software – Remote

May 2024 – Aug 2024

Product & Business Intelligence Analyst Intern

- Developed 3 Power BI dashboards using DAX and data modeling for a \$1.4B fintech client, managing tasks and requirements in Jira, and analyzing engagement patterns across 600,000 users to inform UI/UX improvements
- Monitored weekly dashboards tracking feature usage, active users, and retention to evaluate product performance and support feature improvements, increasing adoption by 15%
- Collaborated with data engineers, data scientists, and business partners to define data requirements and deliver ad-hoc reports, analyzing user behavior and feature performance to guide product strategy

Lions Financial – New York, NY

May 2023 – Aug 2023

Financial Data Analyst Intern

- Analyzed financial statements and stock performance of hotel REITs using Python and Excel, combining market research and competitive benchmarking to inform \$3M+ in investment decisions
- Designed 5+ Tableau dashboards visualizing financial performance and market trends, enabling senior management to reconcile forecasts and prioritize high-performing opportunities

FocusKPI, Inc. – Santa Clara, CA

Jan 2023 – May 2023

Marketing Data Analyst Intern

- Analyzed e-commerce and digital marketing data across 3+ channels (email, paid search, social) using SQL, Excel, and Adobe Analytics, identifying customer trends that informed campaign optimization decisions
- Supported A/B testing by auditing data for tracking discrepancies and inconsistencies across test variants, delivering validated performance insights that improved decision-making speed by 20%

DATA ANALYSIS PROJECTS

Hospitality Database Development (Microsoft SQL Server)

May 2025

- Automated 8+ SQL queries, views, and stored procedures in Microsoft SQL Server to track cabin utilization and reservation status, replacing manual reporting and cutting reporting time by 20%

Airbnb Analytics (Python)

May 2025

- Analyzed 40K+ LA Airbnb listings using SARIMA time series forecasting and regression modeling to predict prices and uncover satisfaction drivers through sentiment analysis, with supporting data visualizations

Data4Good Case AI Competition (Python, Microsoft Azure) - Purdue University

Nov 2024

- Leveraged Azure AutoML to build a text classification model in Python, refining model selection to analyze 5,000+ survey responses and predict support needs across multiple levels with 70% accuracy, informing resource planning

SKILLS & INTERESTS

- BI Tools: Tableau, Power BI, Domo, Tableau Prep, Adobe Analytics, Excel, Amazon Redshift, ETL workflows
- Programming: Python (pandas, NumPy, scikit-learn), SQL, NoSQL, R, JMP Pro, RapidMiner
